Professional Summary

Dedicated and results-driven engineering professional with over 20 years of experience in project management, strategic planning, and operational oversight within industrial settings. Proven ability to lead significant development initiatives, streamline processes, and enhance operational effectiveness. Adept at liaising with government bodies and stakeholders to achieve organizational goals.

Education

Master of Business Administration

University of Bedfordshire, Luton, United Kingdom
2009 - 2011

Bachelor of Engineering in Civil Engineering

Sultan Qaboos University, Sultanate of Oman
1993 - 1998

Professional Experience

Advisor to Sur Industrial City

2016 - Present

- Spearhead the review and advisory process for the industrial city's development and operational plans, ensuring alignment with strategic goals.
- Conduct comprehensive studies on industrial development policies, fostering informed decision-making for major project applications.
- Collaborate with key stakeholders to drive continuous improvement initiatives within the industrial city framework.

Director General, Sur Industrial City

2006 - 2016

- Led the formulation and execution of the annual development plan, optimizing resource allocation and operational budgets.

- Supervised a diverse portfolio of infrastructure development projects, achieving enhanced project efficiency and compliance with regulations.
- Fostered relationships with various government departments, ensuring the successful implementation of development programs and initiatives.
- Evaluated and granted approvals for site application requests, facilitating streamlined operations within Sur Industrial City.

Project Engineer, Directorate General for Planning and Projects – Madayn

2002 - 2006

- Prepared and meticulously reviewed tender documents and project drawings, playing a crucial role in project feasibility assessments.
- Managed the tendering process, including initiating, receiving, and evaluating submissions to ensure quality and transparency.
- Oversaw the signing and implementation of construction contracts, ensuring adherence to timelines and budgetary constraints.

Contract Engineer, Technical Affairs Department – Rusyal Industrial City

1999 - 2002

- Developed and assessed operation and maintenance service contracts, optimizing performance and cost-effectiveness.
- Reviewed and processed building permits and utility connection requests, ensuring compliance with industry standards.
- Supervised daily maintenance activities, ensuring operational efficiency and reducing downtime across facilities.

Skills

- Project Management
- Strategic Planning
- Budget Management
- Stakeholder Engagement
- Policy Analysis
- Engineering and Technical Expertise
- Team Leadership
